VERTICAL LIFT

Constructed from a height of 1 meter to 7 meters...!!:

In order to facilitate barrier-free infrastructural renovation concerning considerable High-rise buildings and public places, our company has researched and developed. VL Barrier-free lifting platform through making a large number of market investigations and Combining the features of the original products. VL barrier-free lifting platform adopts Heavy sectional aluminum vertical

oriented system, hydraulic or screw drive, which can make smooth and safe lifting; meanwhile, it introduces aluminum static blasting painting Chassis and panels, possessing top grade appearance. It can be directly installed into the Ground without architectural supporting pits and easy to operate, besides, it can be Maintained conveniently and placed outdoors and uneasily to stand water and rust. Screw drive can adapt to temperatures below 40°, which is especially suitable for our country.

The wheelchair lift is most suitable for:

- ❖ Hauling a wheelchair along with a person
- ❖ Places where Space is scarce
- ❖ Places where precious Space is premium and cannot utilized for ramps
- ❖ Quick Installation
- ❖ User friendly system – can be used by the user with ease
